reflecta IMAGEBOX LCD9

MAGIC TOUCH TECHNOLOGY

With the new **reflecta IMAGEBOX LCD9** it is very easy to scan slides, negatives and photos. The new Imagebox LCD9 has an amazing resolution of **9 megapixels (2400 dpi)**, as well as a **2,7" LCD-Display**. Thereby the **IMAGEBOX LCD9** is **computer independent** and can nearly be used always and everywhere. A highlight is the **Magic Touch** technology, a scratch and dust removal system based on infrared technology for slides and negatives (not for photos!). To scan the photos (up to size 10x15 cm) just put them on the scan surface and start. You don't need a holder. The Imagebox LCD9 comes with a slide holder for 4 framed slides, a film strip holder for negative/positive film strips up to 6 photos. The **scantime** for all medias is **1 second**.
